Fishing 2026

- The largest Walleye caught this season was 30" – This picture is Doug holding a 27" Walleye, caught Sept 19, 2026. This was caught using a Vig lure we picked up at the Philly Fishing Show being sold at the Stinky Balls booth.

- There is a new bait shop in the Village of White Lake, selling various sizes of minnows, leeches and worms. A lot of guests enjoyed using live bait. Best success was simple slip bobbers with live bait.
- Northern Pike were mostly caught using crank baits of various types. Old Mepps spinners seem to be making a comeback for Northerns.
- The year-end derby on the lake was again won by the team targeting Smallmouth Bass. It's still the zebra mussels that are fattening these guys up. Turns out Zebra mussels are a food source for smallmouths, who knew?
- Largemouth Bass are still the dominant fish species in White Lake and those targeting Largemouth weren't disappointed this year.

Weather- We set all kinds of records in 2026 for rainfall – if it wasn't raining it was often overcast. 😞

What's New - We have purchased a 1 Bedroom Park Model trailer for rent. It has an Add-A-Room with a nice dining table, couch, and fantastic lake views. This will be set up similar to our cabins. \$1,000 CDN or \$750US/week. See all the new pictures on the web site.

The September weather was spectacular- it continues to be the nicest month of weather. Cool nights and warm days! Great for campfires, sleeping, and of course FISHING!

	Philadelphia Fishing Show - 2027 Friday, Jan 8th to Sunday, Jan 10th Hope to see you there!
